

Ham Association of Mesquite

The Ham Association of Mesquite (HAM) is a chartered 501(c)(3) organization formed to promote scientific investigation and education of Amateur Radio. HAM is the local Amateur Radio club and conducts a number of educational and fun events throughout each month such as HAM Radio in the Park and our Fox (transmitter) hunt.

HAM participates in public service events such as organizing and assembling the Mesquite Rode Parade and providing communications support for the Mesquite Rodeo Bike Ride. Many HAM members also participate with Mesquite Radio Amateur Civil Emergency Service (RACES) in support of the National Weather Service's Skywarn program to provide warnings during severe weather and Amateur Radio Emergency Service (ARES). HAM also participated in the recent Preparedness at The Park event at which KEOM also ran a remote broadcast.

With an FCC Amateur Radio license you will be part of an elite group of hobbyists that use the air waves and internet to communicate across town, across the state, across the country and around the world. Imagine setting at home in Mesquite and talking to someone in Germany, Japan, Africa and other far off lands.

Learn more by going to our internet site at www.WJ5J.org or visit our Yahoo Group at <http://groups.yahoo.com/group/mesquiteham/>.

For further information regarding HAM and license classes contact Andy Carstarphen at 972-216-0157.
