Due to the state budget reductions, the 2011-2012 salary schedule reflects a salary freeze at the 2010-2011 level (no step or percentage increase). The steps have been adjusted accordingly and the beginning salary has been slightly lowered. As a result, the salary will remain the same as the 2010-2011 school year. For those with years of experience beyond the salary schedule, the salary will remain at the rate as the 2010-2011 school year.

Future salaries cannot be projected from it.  
Retire/Rehires will receive \$500 less than the schedule indicates  
Part-Time employees will also receive a corresponding percentage reduction.
